

## Science Progression Framework Whitehouse Primary School

EYFS ELG Physical Development	Health and Self-Care	To know the importance for good health of physical exercise and a healthy diet and talk about ways to keep healthy and safe
ELG Understanding the World	The World	• To know about similarities and differences in relation to places, objects, materials and living things. They talk about the features of their own immediate environment and how environments might vary from one another.

		Pla	nts		
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Plants  • identify and name a variety of common wild and garden plants, including deciduous and evergreen trees  • identify and describe the basic structure of variety of common flowering plants, including tees	Plants	<ul> <li>Plants</li> <li>identify and describe the functions of different parts of flowering plants: roots, stem/trunk, leaves and flowers</li> <li>explore the requirements of plants for life and growth (air, light, water, nutrients from soil, and room to grow) and how they vary from plant to plant</li> <li>investigate the way in which water is transported within plants</li> <li>explore the part that flowers play in the life cycle of flowering plants, including pollination, seed formation and seed</li> </ul>	Year 4	Year 5	Year 6
<ul> <li>deciduous and evergreen trees</li> <li>identify and describe the basic structure of variety of common flowering</li> </ul>	• find out and describe how plants need water, light and a suitable temperature to	stem/trunk, leaves and flowers  • explore the requirements of plants for life and growth (air, light, water, nutrients from soil, and room to grow) and how they vary from plant to plant  • investigate the way in which water is transported within plants  • explore the part that flowers play in the life cycle of flowering plants, including pollination, seed			

		Living things in	their habitats		
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
	Living things in their habitats  explore and compare the differences between things that are living, dead, and things that have never been alive  identify that most living things live in habitats to which they are suited and describe how different habitats provide for the basic needs of different kinds of animals and plants, and how they depend on each other  identify and name and animals in their habitats, including micro-habitats  describe how animals obtain their food from plants and other animals, using the idea of a simple food chain, and identify and name different sources of food		Living things and their habitat  recognise that living things can be grouped in a variety of ways  explore and use classification keys to help group, identify and name a variety of living things in their local and wider environment  recognise that environments can change and that this can sometimes pose dangers to living things	Living things and their habitats  • describe the differences in the life cycles of a mammal, an amphibian, an insect and a bird  • describe the life process of reproduction in some plants and animals	Living things in their habitats  describe how living things are classified into broad  groups according to common observable characteristics and based on similarities and differences, including micro-organisms, plants and animals  give reasons for classifying plants and animals based on specific characteristics.

		Animals inclu	uding humans		
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
<ul> <li>Animals including humans         <ul> <li>identify, name, draw and label the basic parts of the human body and say which part of the body is associated with each sense</li> </ul> </li> <li>identify and name a variety of common animals including fish, amphibians, reptiles, mammals and birds</li> <li>identify and name a variety of common animals that are carnivores, herbivores and omnivores</li> <li>describe and compare the structure of a variety of common animals (fish, amphibians, reptiles, mammals and birds including pets)</li> </ul>	<ul> <li>Animals including humans</li> <li>notice that animals, including humans, have offspring which grow into adults</li> <li>find out about and describe the basic needs of animals, including humans, for survival (water, food and air) describe the importance for humans of exercise, eating the right amounts of different types of food, and hygiene.</li> </ul>	Animals including humans  identify that animals, including humans, need the right types and amount of nutrition, and that they cannot make their own food; they get nutrition from what they eat  identify that humans and some other animals have skeletons and muscles for support, protection and movement  Identify and name external parts of the human body including:  - Penis - Vulva	<ul> <li>Animals including humans</li> <li>describe the simple functions of the basic parts of the digestive system in humans</li> <li>identify the different types of teeth in humans and their simple functions</li> <li>construct and interpret a variety of food chains, identifying producers, predators and prey</li> <li>describe changes as humans develop:         Menstruation</li> </ul>	<ul> <li>Animals including humans</li> <li>describe the changes as humans develop to old age including physical changes during puberty including reference to pubic hair</li> <li>Identify, name and label private parts of the human body including:         <ul> <li>Penis</li> <li>Vulva</li> <li>Breasts</li> <li>Testes</li> </ul> </li> </ul>	<ul> <li>Animals including humans         <ul> <li>identify and name the main parts of the human circulatory system, and describe the functions of the heart, blood vessels and blood</li> </ul> </li> <li>recognise the impact of diet, exercise, drugs and lifestyle on the way their bodies function</li> <li>describe the ways in which nutrients and water are transported within animals, including humans</li> <li>Describe the life process of reproduction in humans (no human interaction context given) including language:         <ul> <li>uterus</li> <li>ovaries</li> <li>fertilisation</li> <li>sperm</li> <li>egg</li> </ul> </li> <li>Identify how menstruation is linked to fertility</li> </ul>

Materials and their properties						
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	
Everyday materials	Everyday materials  • identify and compare the suitability of a variety of everyday materials, including wood, metal, plastic, glass, brick, rock, paper and cardboard for particular uses  • find out how the shapes of solid objects made from some materials can be changed by squashing, bending, twisting and stretching.		States of Matter  compare and group materials together, according to whether they are solids, liquids or gases  observe that some materials change state when they are heated or cooled, and measure or research the temperature at which this happens in degrees Celsius (°C)  Identify the part played by evaporation and condensation in the water cycle and associate the rate of evaporation with temperature.	Properties and changes of materials  • give reasons, based on evidence from comparative and fair tests, for the particular uses of everyday materials, including metals, wood and plastic  • demonstrate that dissolving, mixing and changes of state are reversible changes  • explain that some changes result in the formation of new materials, and that this kind of change is not usually reversible, including changes associated with burning and the action of acid on bicarbonate of soda  • compare and group together everyday materials on the basis of their properties, including their hardness, solubility, transparency, conductivity (electrical and thermal), and response to magnets  • know that some materials will dissolve in liquid to form a solution, and describe how to recover a substance from a solution		

		<ul> <li>use knowledge of solids,</li> </ul>	
		liquids and gases to decide	
		how mixtures might be	
		separated, including	
		through filtering, sieving	
		and evaporating	

		Light an	d Sound		
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
		Light	Sound		Light
		<ul> <li>recognise that they need</li> </ul>	<ul> <li>identify how sounds are</li> </ul>		<ul> <li>recognise that light</li> </ul>
		light in order to see things	made, associating some of		appears to travel in
		and that dark is the	them with something		straight lines
		absence of light	vibrating		<ul> <li>use the idea that light</li> </ul>
					travels in straight lines to
		<ul> <li>notice that light is</li> </ul>	<ul> <li>recognise that vibrations</li> </ul>		explain that objects are
		reflected from surfaces	from sounds travel through		seen because they give out
			a medium to the ear		or reflect light into the eye
		<ul> <li>recognise that light from</li> </ul>			
		the sun can be dangerous	<ul> <li>find patterns between the</li> </ul>		<ul> <li>explain that we see things</li> </ul>
		and that there are ways to	pitch of a sound and		because light travels from
		protect their eyes	features of the object that		light sources to our eyes or
			produced it		from light sources to
		<ul> <li>recognise that shadows are</li> </ul>			objects and then to our
		formed when the light	<ul> <li>find patterns between the</li> </ul>		eyes
		from a light source is	volume of a sound and the		
		blocked by an opaque	strength of the vibrations		use the idea that light
		object	that produced it		travels in straight lines to
					explain why shadows have
		<ul> <li>find patterns in the</li> </ul>	<ul> <li>recognise that sounds get</li> </ul>		the same shape as the
		way that the size of	fainter as the distance		objects that cast them.
		shadows change	from the sound source		1
			increases		

		Forces and	d Magnets		
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
		<ul> <li>Forces and Magnets</li> <li>compare how things move on different surfaces</li> <li>notice that some forces need contact between two objects, but magnetic forces can act at a distance</li> <li>observe how magnets attract or repel each other and attract</li> <li>some materials and not others compare and group together a variety of everyday materials</li> <li>on the basis of whether they are attracted to a magnet, and identify some magnetic materials</li> <li>describe magnets as having two poles</li> </ul>		• explain that unsupported objects fall towards the Earth because of the force of gravity acting between the Earth and the falling object  • identify the effects of air resistance, water resistance and friction, that act between moving surfaces  • recognise that some mechanisms, including levers, pulleys and gears, allow a smaller force to have a greater effect	

Seasonal Change						
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	
<ul><li>Seasons</li><li>observe changes across the four seasons</li></ul>		•				

	Rocks and Evolution and Inheritance							
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
		compare and group together different kinds of rocks on the basis of their appearance and simple physical properties     describe in simple terms how fossils are formed when things that have lived are trapped within rock     recognise that soils are made from rocks and organic matter			Inheritance and Evolution  • recognise that living things produce offspring of the same kind, but normally offspring vary and are not identical to their parents  • identify how animals and plants are adapted to suit their environment in different ways and that adaptation may lead to evolution  • recognise that living things have changed over time and that fossils provide information about living things that inhabited the Earth millions of years ago			

	Electricity						
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6		
•				identify common appliances that run on electricity     construct a simple series electrical circuit, identifying and naming its basic parts, including cells, wires, bulbs, switches and buzzers     identify whether or not a lamp will light in a simple series circuit, based on whether or not the lamp is	electricity		

		part of a complete loop with a battery	<ul> <li>use recognised symbols when representing a simple circuit in a diagram.</li> </ul>
		<ul> <li>recognise that a switch opens and closes a circuit and associate this with whether or not a lamp lights in a simple series circuit</li> </ul>	

Earth and Space								
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
•				<ul> <li>Earth and Space</li> <li>describe the movement of the Earth, and other planets, relative to the Sun in the solar system</li> <li>describe the movement of the Moon relative to the Earth</li> <li>describe the Sun, Earth and Moon as approximately spherical bodies</li> </ul>				
				use the idea of the Earth's rotation to explain day and night and the apparent movement of the sun across the sky.
